

TOP 5 FACTORS TO CONSIDER WHEN CHOOSING THE DOCTOR TO PROVIDE YOUR ORTHODONTIC TREATMENT

1 IS THE PROVIDER A DENTIST OR AN ORTHODONTIST?

An orthodontist is a specialist who was trained exclusively in straightening teeth and providing an ideal bite. Orthodontists straighten teeth all day every day, and therefore have the most experience in straightening teeth. A dentist does fillings, root canals, crowns, veneers, whitening, bridges, implants, and some orthodontic treatment, but does not specialize in orthodontics.

2 IF YOU ARE SEEING AN ORTHODONTIST, ARE THEY BOARD CERTIFIED?

Less than half of orthodontists are Board Certified but Dr. McCaffrey is proud to be certified by the American Board of Orthodontics

3 IS YOUR ORTHODONTIST EXPERIENCED IN INVISALIGN?

Dr. McCaffrey is in the top 1% of all Invisalign Providers.

4 DOES YOUR ORTHODONTIST HAVE 5 STAR GOOGLE REVIEWS THAT PRAISE THEIR RESULTS?

Dr. McCaffrey has over 1,100 ★★★★★ google reviews from hundreds of happy patients 😊

5 WHAT IS INCLUDED IN TREATMENT?

Our treatment fee includes orthodontic records (Photos, x-rays, digital scan), all treatment visits, unlimited Invisalign trays for up to 5 years, a set of Clear Essix retainers, one year of follow up visits and retainer checks. Also there is also no additional charge for any additional visits during treatment, braces or Invisalign at our practice
